# METHOD Of Computing the CUSTOMS

*Made plain to the Meanest Capacity.*

With Examples of One and 100 pound Weight, Hundred Weight, Yards, Gallons, &c. Of each kind of Goods likely to be Imported into *North Britain*. Also of Prize-Goods. And each Duty distinctly Computed, Gross, Discount, and Neat. By which Merchants before they send for their Goods Over-seas, may know what Dutys they are to pay for them at the Custom-house.

Also Full and Clear Instructions and Examples for all sorts of Entries; And for all sorts of Debentures, Draw-backs, Bounty-Moneys and the like.

---

Edinburgh, Printed by the Heirs and Successors of James Ballantyne, Printer to the Queen's most Excellent Majesty.

## To the Reader.

I Thought to have said ~~nothing~~ either in Commendation or Excuse of this Book, but to have left it to stand or fall by its own Merits, as I desire it may still: yet since the Errata happen to be so many, and that I must beg the Purchaser to take the pains to Correct them; I cannot but crave Pardon for them, tho no Faults of mine, I hope the Book in it self has all that's needful as far as it Promises: And if it be Clear, the more Concise the better: I could have swell'd it to a much greater Volume, and yet have put no more in't to the Purpose than I have. I owe there is still more to be Communicated, but the most Important to be known is here, and I wou'd not run to too great a Volume till I see how this sells, which if it does readily, as I doubt not but it will, I then Promise that in my second Part (which will be of much less Bulk and Coste than this) I'll Endeavour to supply whatever Defect I shall understand to be found in this; And I hope to the Merchant's full Satisfaction.

THE

# Method of

## Computing the Customs.

I must take leave in the first place, to presuppose the Reader already well Acquainted with the Rule of Practice, which Rule no Merchant or Accomptant can be without. And then I shall only say in short ; That,

To Compute the Dutys on any Commodity, is only to take the 5 pound *per Cent*, or the  $\frac{1}{20}$  part of what you see the Commodity valued at in the Book of Rates, That is; For every pound *Sterling* one shilling: and Consequently for every part of a Pound, the like part of a Shilling ; As for Example,

For the half of a Pound which is 10 *sb.* take the half of a shilling which is 6*d.* for 5*sb.* take 3*d.* for 15*sb.* take 9*d.* for 6*sb.* 8*d.* take 10*d.* for 3*sb.* 4*d.* take 2*d.* and so forth.

Suppose therefore, 300 dozen of Babies-heads of Earth imported, and Duties to be payed, look in the Book of Rates and you'll find them Rated at 13 *sb.* 4*d.* *per Dozen* ; Now 10 *sb.* bring the one half of a pound, and 3 *sb.* 4*d.* the of 10 *sb.* 'tis plain that by taking the hal. of 300 and

( 2 )

of that half, you have your Subsidy gross in shillings which you can easily reduce to pounds, as per Exam-

300 Dozen of Babies-Heads at 13 *sh.* 4*d.* per Doz.

150 The half of 300 for the 10 *sh.*

50 The  $\frac{1}{3}$  of that for the 3 *sh.* 4 *d.*

In all 200 Shillings.

which make L. 10 the Subsidy Gross.

Thus you may Compute all manner of Dutys whether Old or New Subsidy, Impost, Additional-Duty, or whatever it be.

But you can sometimes have the even part of a Pound, when you cannot without a Fraction have the like even part of a Shilling. As for Example,

For 4 *sh.* the  $\frac{1}{2}$  of a Pound, you cannot have the  $\frac{1}{2}$  of a Shilling without a Fraction: For the  $\frac{1}{10}$  or  $\frac{1}{20}$  of a Pound, you cannot have the  $\frac{1}{10}$  or  $\frac{1}{20}$  of a Shilling without a Fraction.

In this Case, or when the Commodity is not Rated at an Even part of a Pound, or is Rated but at a small Value, or there is but little of it; Cast it up as it is Rated, and take the L. 5 per Cent. off that for your Subsidy Gross, as per Example.

Suppose 300 *lib.* Aneil of *Barbary*, which in the Book of Rates is Rated at 1 *sh.* 6 *d.* per Pound, Cast it up thus.

300 Shillings

150 Shillings, that is 300 Sixpences.

In all 450 Shillings.

That is L. 22 10 The Value of 300 *lib.* Aneil as Rated.

L. 1 2 6 the 5 per Cent. or Subsidy Gross thereof.

And

( 3 )

And here now Observe, that there are several Allowances of so much *per Cent.* in each Subsidy granted to Merchants for prompt payment, which accordingly when prompt payment is made, must be Subtracted from each Respective Subsidy, and the said Allowances or Discompts are as follow.

|                                                                  |                                                              |
|------------------------------------------------------------------|--------------------------------------------------------------|
| Old Sub. Inwards $5\frac{1}{2}$ <i>per Cent.</i>                 | Add. Imp. 169 $\frac{3}{4}$ 6 $\frac{1}{2}$ <i>per Cent.</i> |
| New Subsidy (except on Tobacco) $\frac{5}{8}$ <i>per Cent.</i>   | Whale-fins 6 $\frac{1}{4}$ <i>per Cent.</i>                  |
| Subsidy 5 <i>per Cent.</i>                                       | Imp. on Tobacco to be consumed here. — } 8 <i>per Cent.</i>  |
| Subsidy 5 <i>per Cent.</i>                                       | Dit. for prompt payment. — } 10 <i>per Cent.</i>             |
| New Sub. on Tobacco 2 $\frac{1}{2}$ <i>p. Cent.</i>              | Imp. on Wine for waste 8 <i>p. C.</i>                        |
| Additional Duty on Linnen & Silk — } 10 <i>per Cent.</i>         | Dit. for prompt payment. — } 5 <i>per Cent.</i>              |
| D <sup>o</sup> on Tobacco & Wine 7 $\frac{1}{2}$ <i>p. Cent.</i> | Old Sub. of Tonnage for Leakage. — } 12 <i>p. Cent.</i>      |
| Impost 1690 6 $\frac{1}{4}$ <i>per Cent.</i>                     |                                                              |

Here you see the Old, New, and Subsidies, have generally all the same Discompt, *viz.* 5 *per Cent.*

And therefore when your Old Subsidy Computed do's not come Exactly to an Even part of a Pound or Shilling; do thus,

Add all your first Subsidies together that pay the same Discompt, That is, Take 3 times your Old Subsidy Gross, and then take the 5 *per Cent* Discompt off from that, and you can easily afterwards divide your Neat: You have frequent Examples of this in the following Alphabet of Goods Computed as in Amber, Anchories, &c. Which see,

Or Cast up each Subsidy as Rated, and take your proper Discompt off your Subsidy so cast up; That is,

( 4 )

Off your Old, New,  $\frac{1}{2}$  &  $\frac{1}{2}$  Subsidy, &c. 5 per Cent.

Off your Impost 1690 and 169 $\frac{2}{3}$  &c. 6  $\frac{1}{4}$  per Cent.

Off your Additional Duty, &c. 10 per Cent.

This done, add all your Neat Sums into one, and take the 5 per Cent. of that for the Total of all your Neat Subsidies; as per Example,

Silk wrought of the Manufactory of *Italy*, Imported from thence in *English* Shipping, the Pound Weight.

O. S. G. 01 13 04  
00 01 08

01 11 08

L. 03 02 06

Impost 169 $\frac{2}{3}$  — 02 00 00  
00 02 06

L. 01 17 06

In all 10 09 03

The 5 per Cent. thereof, or the Total } L. 00 10 05;  
of all your Subsidies Neat is —

Note, That (as you will see in the Book of Rates) the New Subsidy to be generally the same with the Old Subsidy. So the  $\frac{1}{2}$  and  $\frac{1}{2}$  Subsidies together, are always the same as the New or further Subsidy.

Note

*Note*, Again whatever Goods pay the further Subsidy, pay also the  $\frac{1}{2}$  and  $\frac{2}{3}$  Subsidy equal to the said further Subsidy, except Tobacco, and such Currants as shall be Imported in *British* Shipping, and Sugars, from the *British* Plantations, and Prize Goods. Tobacco, Currants and Sugars Pay the  $\frac{1}{2}$  Subsidy, Prize Goods neither  $\frac{1}{2}$  nor  $\frac{2}{3}$  Subsidy.

Whatever Goods pay no further Subsidy pay no  $\frac{1}{2}$  or  $\frac{2}{3}$  Subsidy, and in General all Dyers Goods are exempted from the further Subsidy, and from the  $\frac{1}{2}$  and  $\frac{2}{3}$  Subsidies.

It is Easy to take the  $\frac{1}{2}$  and  $\frac{2}{3}$  Subsidies each a-part, by taking the  $\frac{1}{2}$  of the New Subsidy, (or rather since they are the same of the  $\frac{1}{2}$  and  $\frac{2}{3}$  Subsidy joyned in one) Subtract the said  $\frac{1}{2}$  from the whole, and the Remainder will be the  $\frac{2}{3}$  Subsidy. Again your  $\frac{1}{2}$  if right taken being doubled, will make just your Remainder, or  $\frac{2}{3}$  Subsidy.

Now in order to take readily the several Discompts, be pleased to observe the following Rules;

For the 5 per Cent. you see it in the second Paragraph, it is taking the  $\frac{1}{20}$  part of your Subsidy Gross, or for every pound one shilling, and for every part of a Pound the like part of a shilling. As per Example,

To take the 5 per Cent of L. 32 10 *lb.* 10 *d.* for the 32 *l.* you take 32 *lb.* that is 1 *l.* 12 *lb.* for the 10 *lb.* you take 6 pence for the 10 *d.* you take a halfpenny. As for Example, Suppose,

|                     |   |             |
|---------------------|---|-------------|
| Old Subsidy Gross   | — | L. 32 10 10 |
| Discompt 5 per Cent | — | L. 01 12 06 |

---

Old Subsidy Neat is — L. 30 18 03

To take the 2  $\frac{1}{2}$  per Cent.

First take your 5 per Cent. and the half of that is your 2  $\frac{1}{2}$  per Cent; As for Example,

To

( 6 )

To take the  $2\frac{1}{2}$  per Cent. off ——— L. 32 10 10  
The  $2\frac{1}{2}$  p. Cent. or the  $\frac{1}{2}$  of 5 p. Cent. is 00 16 03  $\frac{1}{4}$

Ergo the Subsidy Neat is ——— L. 31 14 06  $\frac{3}{4}$

For the 5 per Cent. of the above said Sum is L. 01 12 06  $\frac{1}{4}$

The half of that or the  $2\frac{1}{2}$  per Cent. is ——— L. 00 16 03  $\frac{1}{4}$

To take the  $7\frac{1}{2}$  per Cent.

Take the 5 per Cent. and the half of the said five per Cent. and add the said 5 per Cent. and the half of the said 5 per Cent. together, and the Total will be your  $7\frac{1}{2}$  per Cent. As per Example,

To take the  $7\frac{1}{2}$  per Cent. off ——— L. 32 10 10  
The  $7\frac{1}{2}$  per Cent. of Ditto is ——— L. 02 08 09  $\frac{3}{4}$

Ergo the Subsidy Neat will be ——— L. 30 02 00  $\frac{1}{4}$   
For the 5 per Cent. is ——— L. 01 12 06  $\frac{1}{4}$   
And the half thereof ——— L. 00 16 03  $\frac{1}{4}$

And these two make together the  $7\frac{1}{2}$  p. Cent. viz. L. 02 08 09  $\frac{3}{4}$

To take the  $6\frac{1}{4}$  per Cent.

Take the 5 per Cent. and the Quarter of the said 5 per Cent. and add the said 5 per Cent. and the Quarter of the said 5 per Cent. together, and the Total will be your  $6\frac{1}{4}$  per Cent. As per Example,

To take the  $6\frac{1}{4}$  per Cent. off ——— L. 32 10 10  
The  $6\frac{1}{4}$  per Cent. of Ditto is ——— L. 02 00 08

Ergo the Subsidy Neat will be ——— L. 30 10 02

For

( 7 )

For the 5 per Cent. is ——— L. 01 12 06  $\frac{1}{2}$

And the  $\frac{1}{4}$  of the said 5 per Cent. is L. — 00 08 01  $\frac{1}{2}$

So that your 6  $\frac{1}{4}$  per Cent. is ——— L. 02 00 08

Note, To take the Quarter, I usually take first the half, and then the half of that half; As per Example,

The 5 per Cent. is ——— L. 01 12 06  $\frac{1}{2}$

The half of that 5 p. Cent. ——— 00 16 03  $\frac{1}{4}$  } which I dash out  
to avoid Confusi-  
on.

The half of that  $\frac{1}{4}$  or the  $\frac{1}{8}$  is ——— 00 08 01  $\frac{1}{2}$

The 1st & the 3d. added ——— }  
together make the 6  $\frac{1}{4}$  p. Cent. } 02 00 08

To take the 10 per Cent.

Cut off the last Figure of your Pounds, take the others Re-  
maining on the left Hand for the Pounds of your Ten per  
Cent Discompt, double the single Figure cut off from your  
Subsidy, and Add to it the  $\frac{1}{10}$  of the Shillings of your Subsidy,  
then take the  $\frac{1}{10}$  of your Remaining shillings and pence. Or  
Double in your Mind the Remaining shillings and pence of  
your Subsidy, and take the 5 per Cent. thereof ( which is the  
same thing as taking the 10 per Cent. of the Single ) and add  
to the Shillings of the said 5 per Cent. The shillings aforesaid  
of your single Figure Doubled, as per Example.

To take the 10 per Cent. off ——— L. 32 10 10

Discompt thereof 10 per Cent. is ——— 3 05 01

So that the Subsidy Neat will be ——— L. 29 05 09

Here

For

( 3 )

Here you take your 3 Cut off on the left Hand for the Pounds of your Subsidy; you Double your 2 Cut off on the right Hand which makes 4 *shill.* For 10 *shill.* you take 1 *shill.* which makes 5 *shill.* And for 10 *d.* you take 1 *d.* the  $\frac{1}{10}$  thereof or the  $\frac{1}{10}$  of 10 *d.* Doubled in your Mind which is 20 *d.*

To take the 4  $\frac{1}{2}$  per Cent.

First take 5 per Cent. and then the  $\frac{1}{10}$  of the 5 per Cent. and Subtracting the said  $\frac{1}{10}$  from the said 5 per Cent. the Remainder will be the 4  $\frac{1}{2}$  per Cent. As per Example,

To take 4  $\frac{1}{2}$  per Cent. off ——— L. 32 10 10

The 4  $\frac{1}{2}$  per Cent. thereof is ——— L. 01 09 03  $\frac{1}{2}$

Ergo the Subsidy Neat will be ——— L. 31 01 06  $\frac{1}{2}$

For the 5 per Cent. is L. 01 12 06  $\frac{1}{2}$

The  $\frac{1}{10}$  thereof is ——— L. 00 03 03

Therefore the 4  $\frac{1}{2}$  per Cent. to be deducted is ——— L. 01 09 03  $\frac{1}{2}$

To take the 8 per Cent.

You may either take the 10 per Cent. and Subtract from that the  $\frac{2}{5}$  thereof, and the Remainder will be your 8 per Cent. As for Example,

To take the 8 per Cent. off ——— L. 32 10 10

The 8 per Cent. thereof is ——— L. 02 12 00  $\frac{3}{4}$

So that the Subsidy Neat will be ——— L. 29 18 09  $\frac{1}{4}$

For the 10 per Cent. is L. 03 05 01

The  $\frac{2}{5}$  thereof is ——— L. 00 13 00  $\frac{1}{2}$

Therefore the 8 per Cent. must be ——— L. 02 12 00  $\frac{1}{2}$

Or you may take your 8 per Cent thus.

Multipl

Multiply your Sum ( whatever it be ) by 8, then cut off the two last Right Hand Figures of the Pounds, and Multiply them by 20, and take in the odd shillings : Again cut off the two last Right Hand Figures, and Multiply them by 12 taking in the odd pence. Again cut off the two last Right Hand Figures, and Multiply them by 4 cutting off in like Manner. Example,

$$\begin{array}{r} \text{L.} \quad 32 \quad 10 \quad 10 \\ \hline \quad \quad \quad 8 \end{array}$$

$$\begin{array}{r} \text{L.} \quad 2 \mid 60 \quad 06 \quad 08 \\ \hline \quad \quad 20 \end{array}$$

$$\begin{array}{r} \text{lb.} \quad 12 \mid 06 \\ \hline \quad \quad 12 \end{array}$$

$$\begin{array}{r} \text{d.} \quad 80 \\ \hline \quad \quad 4 \end{array}$$

$$\text{q.} \quad 3 \mid 20$$

Here you see the 8 per Cent. of L. 32 10 10 is L. 02 12 00.

Note, When the Sum Respectively Multiply'd, do's not produce a third Figure to be cut off ( as you see in the Case of Pence in the Example above ) Multiply the 2 Figures by the next Denomination ( that is, if Pounds by shillings, if Shillings by Pence, &c. ) and cut off the 3<sup>d</sup>. Figure of that, as you see done above, where I Multiply the 80 d. by 4 to bring them into Farthings.

You may Calculate the same way 2, 3, 4, 5, 6, or 9 per Cent. that is, Multiplying the Sum by each respective Figure as you do here by 8, viz. If you would have 3 per Cent. by 3. If 4 per Cent. by 4. If 9 per Cent. by 9. &c.

B

Here

Here follow some Tables of the several Discounts most in use, from 1 shilling to 20 which I have put for the use of Learners.

The 5 per Cent. from 1 shilling to 20 shillings.

| sh. | L. | sh. | d. | q.            | sh. | L. | sh. | d. | q.            |
|-----|----|-----|----|---------------|-----|----|-----|----|---------------|

|                                  | Foreign Salt Im-<br>ported. ———         | at 6 Months ———                                                                                                          | 5 per Cent.                                                                                    |

Note, When any Bonds become Due and are not punctually Discharged by the Merchant, He and His Securities are liable for the Interest thereon Accruing, in whole or in Part for that Remains Unpaid; Which Interest is to be Calculated per Cent. and Added to the Principal Sum.

This must be Plac'd betwixt Fol. 12 and 13.

*Note,* The Additional Duty on Linen, Silk, &c. is the half of the Old Subsidy Neat. And the Discompt of the said Additional Duty is 10 *l. per Cent.* for prompt payment. There is also an Aliens Duty called *Petty-Custom*, which is  $\frac{1}{4}$  of the Old Subsidy Gross payable upon the Goods after-mentioned when Imported in Foreign Shipping *viz.*

|                         |                    |                      |
|-------------------------|--------------------|----------------------|
| <i>Aquavita</i>         | <i>Flax,</i>       | <i>Salt,</i>         |
| <i>Balks,</i>           | <i>Hemp,</i>       | <i>Spars,</i>        |

| <i>Currants,</i>        | <i>Prunes,</i>     | <i>Vinegar and }</i> |
| <i>Deales,</i>          | <i>Raisins,</i>    | <i>Wine.——— }</i>    |
| <i>Figgs.</i>           | <i>Rozen.</i>      |                      |

As also all Goods of the Growth, Production or Manufactory of *Muscovy, Russia and Turkey.*

But in my following Computations, I have taken no Notice of this *Petty-Custom*, it being only payable when the Goods are Imported in Foreign Shipping. And there is nothing more Easie than to take  $\frac{1}{4}$  of your Old Subsidy Gross and Add it to your Sum what ever it be.

When perusing the Book of Rates be not always content with what you see set down in the Columns there, but look well where be no Paragraph Inserted after such Commodity mentioning some other Impost on the said Commodity, and if you find any such mentioned, turn to it and find it, and add it to the other Subsidy. As *per Example,*

Suppose 84 Dozen Adzes for Coopers Imported and Duties thereon, you'll find in the Book of Rates a Paragraph after Adzes denoting a further Impost upon them, and referring you

( 14. )

you for it to wrought Iron. Look for wrought Iron, and you will find that Imported in *British* Shipping. It pays Impost after the Rate of L. 23 per Ton, in Foreign Shipping 33 L. per Ton, Compute accordingly. As per Example,

( Be what they will. ) Suppose 4 Dozen Adzes to be 3 Tons. Then thus,

4 Dozen Adzes for Coopers Imported in *British* Shipping Duties paid.

Rated in the Book of Rates at 12 *sh.* per Dozen.

You'll find the like of this in Linen, Silk, Tobacco, &c. that is, Paragraphs subjoyn'd Importing further Imposts.

And now, Methinks, I have said enough to instruct any Man of a Tolerable Capacity, in the Method of Computing the Duties on Commodities; And I am sure he needs no want Examples, let him if he pleases at some Leisure Hours

Cast up 1 and 100 of each of those that I have done; and  
he'll need no other Master.

It only remains to speak two or three Words of the follow-  
ing Alphabet,

It is an Alphabet of most of the Goods that are likely to  
be imported into *North Britain*, with the several Subsidys  
Cast up of 1 and 100 of each.

That is of 1 *lib.* and 100 *lib.* 1 Yard and 100 Yards. 1  
C. weight and 100 C. weight, &c. and the difference  
is set down that unavoidably falls (since we go no lower than  
Farthings) betwixt the casting up of one and 100, which pro-  
portionably you may either Add or Subtract as you shall see  
needful, (Conforming the One to the 100 rather than the  
Hundred to the One, because the 100 is generally more ex-  
act than the One) As in the following Example, *viz.*

Suppose 143 C. weight undrest *Flax*.

The 100 C. weight you'll find Computed to L. 18 18 09  
43 C. weight at 3*lb.* 9*d.* (which it is Computed } L. 08 03 00  
at *per Cent.*) is \_\_\_\_\_

so that in all the 143 hundred weight amount to L. 27 01 09  
Deduct for the 43 C. part of the Difference } L. 00 00 02  
which you see to be 5 *d.* Over-plus \_\_\_\_\_

And there Remains \_\_\_\_\_ L. 27 01 07

Now Compute 143 C. weight Ditto from the Book of  
rates altogether, and you'll find it come within a Farthing of  
the aforesaid Sum. As for Example,

( 16 )

## 143 C. weight Undrest Flax Duties payed.

L. 06 14 01

In all ————— L. 27 01 07  $\frac{3}{4}$

In the Fore-going Computation it is L. 27 01 07  $\frac{1}{2}$

Thus by Computing any quantity of Goods altogether, and then Casting them up by this Book. The Merchant may be Certain before he goes to the Custom-house, of what he has to pay there.

And it may be also a sort of a Check to Ascertain the Custom-House Officer.

When you see as you frequently will, 3 {Sums the same follow one another (as you see thrice L. 06 15 10  $\frac{1}{4}$  above) The first is the Old Subsidy Neat, the second the New Subsidy Neat, and the third, the  $\frac{1}{3}$  and  $\frac{2}{3}$  Subsidy Neat together.

*Note,* O. S. G. Is Old Subsidy Gross,  
 N. S. G. New Subsidy Gross,  
 O. S. N, Old Subsidy Neat,  
 N. S. N. New Subsidy Neat,  
 $\frac{1}{3}$  and  $\frac{2}{3}$  S. N.  $\frac{1}{3}$  and  $\frac{2}{3}$  Subsidy Neat.

And when in the Computations of the French Prize Goods I say, The two Subsidies, I mean the Old and New Subsidy. They

they paying no  $\frac{1}{3}$  or  $\frac{2}{3}$  Subsidy ; As also, that the Discompts of the Old Subsidy, New Subsidy and  $\frac{1}{3}$  and  $\frac{2}{3}$  Subsidy are generally L. 5 per Cent. and of the Impost 1690 and 1691 L. 6  $\frac{1}{4}$  per Cent. and of Additional Duty on Linen, Silks, &c. L. 10 per Cent. when otherways I mention what they are.

*Note* again, when I say the 4 Subsidys Gross, I mean the Old Subsidy, New Subsidy and  $\frac{1}{3}$  and  $\frac{2}{3}$  Subsidy Gross altogether in one Sum.

*Note*, When I put O. S. G. so much in a *Parenthesis*, or any Sum in a *Parenthesis* after O. S. G. or after Impost 1690, or Impost 1691, Additional-Duty &c. It shews what the Old Subsidy, Impost, Additional-Duty &c. of such a Commodity is Rated at in the Book of Rates.

And when you happen to Import any Goods not Computed in this Book: you need only Ask for the Book of Rates at any Custom-House ; And Compute them from that, wherein you can meet with no Difficulty, all that is Nice being ( I think ) Exemplified here.

Rhenish Wine for private use is the same as above, The  
Impost it L. 01 18 00

As also for Vintners, The Impost is only L. 02 00 00

And these Examples may be sufficient to Teach any Man  
how to select the Dutys upon any sort of Wines.

*Note,* The Dutys of the abovemention'd Wines, are  
Computed as payable at the Out Ports; Any of which Wines  
if *per Coast Cocquet* sent to London, must pay there the Re-  
mainder of what it has payed short of the London Dutys.

Brandy

As also for Vermont. The report is only in a few cases. And these examples may be sufficient to teach any man to select the best way of doing any sort of business. The State of New York is a very large State, and it is not possible for any one man to do all the business of the State. It is necessary to have a system of business, and it is necessary to have a system of business that is based on the principles of justice and equity. The State of New York is a very large State, and it is not possible for any one man to do all the business of the State. It is necessary to have a system of business, and it is necessary to have a system of business that is based on the principles of justice and equity.

# TREATISE Of ENTRIES, DRAWBACKS, &c.

I hope enough is premis'd about the computing Part : But since the foregoing Alphabet is of each Sort of Goods singly by themselves, and that your Entries at the Custom-house are likely to consist of several Sorts of Goods together ; And because it is natural to presuppose Goods entred inwards, before you can pretend to have Drawbacks for the Export of them. I shall therefore, before I treat of Drawbacks, present you some Examples of the Way of entring Goods at the Custom-house. I have therein set down the Duties in such Order as they are usually plac'd by the Officers, which you need not do unless you please, your Entry being only as a sort of Invoice of such Goods as you export or import.

*Note,* The following Examples are most of 'em cast up according to the Value of the Goods in the Book of Rates ( as an Example Page 4. ) which in my Mind is generally the best Way of computing.

What Duties may be bonded, you may see in the Scheme hereof, in the Treatise of computing.

Of

All the above Subsidies shall be always paid down.

( 11 )  
Of Salt.

ALL Foreign Salt Imported is to be weigh'd, and 84 Pound is to be reckoned a Bushel, and 40 such Bushels make a Wey, as per Book of Rates, Page 677. And by the 8th Article of the Union, it is Provided, *That, for the Ease of Merchants Importers, all foreign Salt imported into this Part of Great Britain, shall be cellar'd and lock'd up under the Custody of the Merchants Importers, and the Officers employ'd for levying the Duty upon Salt, that the Merchant may have what Quantity thereof on Occasions may require, not under a Wey at a Time, giving Security for the Excise of the same, payable in six Months.*

When the Salt is cellar'd, it is to remain for Security of the Excise thereon payable, under two Locks, the Key of one to be kept by the Merchant, and the Key of the other by the Collector and Comptroller. Note, The Merchant is answerable for the Excise of the whole Quantity of Salt cellard, tho the same should fall short at the Delivery out thereof.

Your Entry of foreign Salt is as follows, viz.

N<sup>o</sup> 7. *Kirkaldy* 10 December 17

In the *Andrew of Leith, John Ferguson* Master,

from *Lisbon*

*James Brooks* Merchant

Two thousand Bushels Salt for saving Fish — L. 3 06

Discount lib. 5 per Cent. — 00 03

Old Subsidy — 03 03

New Subsidy — 03 03

One third Subsidy — 01 01

Two thirds Subsidy — 02 02

*James Brooke.*

L. 09 10 00

Note, All the above Subsidies must be always paid down.

When you want out any Part of your Salt, you go to the Collector, and pay or give him Bond for the Payment of the Excise thereof in six Months Time, and he makes you out an Entry, or you may make it your self, in Form as follows, viz.

N<sup>o</sup> 8.

rkaldy

15<sup>h</sup> December 1708.

Out of the Cellar or Warehouse, &c.

which the foreign Salt from on Board the *Andrew of Leith*, *John Ferguson* Master from *Lisbon*, was lodged, upon Entry thereof made here the 10<sup>th</sup> December instant, Entry N<sup>o</sup> 7.

*James Brooke* Merchant,

One hundred and sixty Bushels Portugal Salt,

Excise Bonded ————— L. 53 06 08

JAMES BROOKE.

Note, If you pay down ready Money, you are to have L. 5<sup>s</sup> Cen. Discount allow'd you.

This done, the Collector and Comptroller give you a Warrant directed to the Surveyor and Land-waiter, for the Delivery of much Salt.

Note. In the Book of Rates, Page 385, the Law gives the following Direction, viz. For every Wey of Salt imported in the Time (except such Salt as shall be used in curing Fish) five shillings more than the same is charged with in the Book of Rates, so in Proportion for any greater or lesser Quantity.

Note, That when the whole Quantity of Salt imported does amount to Fourty Bushels, the Duty Inwards must be paid, also the Excise either paid or secured for the whole Quantity upon Entry thereof.

Of

## Of Post and Over-entries.

**I**F any Merchant shall enter short as to the Contents in Weight or Measure of his Goods, the Surveyor and Land-waiter are to return an Account thereof to the Custom-house, certifying by their Subscriptions the Quantity short-entred, that the Merchant may make a Post-entry, which he does in the same Manner as the Prime Entry.

If a Merchant over-enter his Goods, and hath paid or bonded the Duties, for more Goods than are really and truly landed, the Surveyor and Land-waiter are to certify the same, upon Oath made and subscrib'd by the Merchant, that neither he nor any other Person to his Use or Knowledge, had any of the said Goods over-entred Aboard the Ship, or any where Landed the same without Payment of Custom: Which Oath is attested by the Collector and Comptroller, who then compute the Duties and set down on the Back of the Certificat, first in Words at Length, and then in Figures, the respective Sums to be paid proceeding much in the same Manner as in Debentures, as per Example.

### *Certificate.*

These are to certify, That *Andrew Henderson* did enter and pay Her Majesties Duties Inwards, in the Ship *Margaret Leitb*, *James White* Master from *Norway*, the 2<sup>th</sup> Day of *October* 1708, for 60 Hundred *Norway* Deals, and Twenty Lasts Tarr; And we the Officers underwritten did examine the same at the Delivery thereof out of the said Ship, and found no more than Fifty five Hundred *Norway* Deals and Fifteen Lasts Tarr so that the said Merchant is over-entred Five Hundred No

*W 17* Deals and Five Lasts Tarr : And for further Manifestation of the Truth t hereof, he hath made Oath, that neither he, nor any other Person to his Use or Knowledge, had any of the said Goods so over-entred on Board the said Ship, or in any Place. Landed without Payment of Custom. Dated at the Custom-house *Kiikaldy*, this 6th day of November 1708.

E. F. Surveyor.  
I. K. Land-waiter.

*Jurat* Andrew Henderson, that the Contents of the above mention'd Certificate are true.

Andrew Henderson

A. B. Collector.

C. D. Comptroller.

The rest on the Back side is all in the same Form as a De-  
benture.

## Of Entries Outwards.

Your Entries Outwards are only a sort of Invoice of your Goods to be exported ; whecein you declare the Marks, Numbers and Contents of each Parcel, signed by your self or your known Servant, as *per* Example.

*Leith*

26th June 1708.

In the *Thomas* of London, John Gibson Master for Dublin,

James Williamson Merchant,

JAMES WILLIAMSON.

## *Of Drawbacks.*

For the Encouragement of Trade, and to enable the Merchants of this Kingdom to sell their Foreign Goods at Foreign Markets, the Parliament, from Time to Time, when they have laid any Subsidys or Impositions on Goods, have made a Proviso, That if any of the said Goods shall be exported in such a limited Time, they shall draw back all or most of the said Duties, according as you see in the following Scheme for Drawbacks.

11 JY 63

Scheme

Now when you intend to export any Goods which have a Drawback, you must not only mention the Marks, Numbers and Contents, as above, in your Entries Outwards; But also the Name of the Ship wherein the Goods were imported, the Importer and Time of Entry Inwards, and give Oath that the Duties for these Goods were paid, or secured to be paid, as the Law directs. An Entry made in this Tenor you carry to the Collector and Comptroller, who, after examining their Books, will grant you a Warrant as hereafter specified, which Warrant you are to give to the Surveyor, Searcher and Land-waiter, who are to certify the Quantity of the Goods ship'd off, both in your Cocquet and Debenture, as you see in the subjoyn'd Examples. Some time after the Ship is sail'd, you come and demand a Debenture for the said Goods from the Collector and Comptroller, who, after examining their Books, will give you a Certificat upon Parchment of your having entered the same: which Certificate you carry to the Surveyor, Searcher and Land-waiter, for them therein to certify the Quantity of the Goods ship'd. Then you bring back the Certificate to the Collector and Comptroller, and make Oath that the said Goods are really ship'd, and not again Landed, nor intended to be re-landed in any Part of *Great Britain*. This done, they set down on the Back of your Debenture, first in Words at Length, and then in Figures, the distinct Sum in each Branch of the Duties, and subscribe joyntly to the whole Amount.

By Virtue of this Debenture, in a Month after the Departure of the Ship from *Great Britain*, the Exporter may demand his Money to which he is entitul'd by Law, as per Book of Rates Page 195. And in case the Collector has not Money in his Hands to pay the Debenture, he is to certify the same

(16)

on the Back of the Debenture, that the Exporter may have Recourse to the Commissioners of the Customs, who are then to pay him ; As *per* Example.

*Andrew Henderson* has a Mind to export the 10 C. *Norway Deals*, and the Five Lasts of Tarr formerly imported, as *per* Entry N<sup>o</sup> 2.

His Entry thereof will be made thus.

*Kirkaldy*

20th November 1708.

In the *Elisabeth* of *Leith*, *John Higginson* Master for *Dublin*,  
*Andrew Henderson* Merchant,

A. H.

Ten Hundred *Norway Deals*, and Five Lasts Tarr, Reported the 25th October last, in the *Margaret* of *Leith*, *James White* Master from *Norway*, and the Old Subsidie, New Subsidy, One Third Subsidy, Two Thirds Subgdy, Impost 1690, and Impost 169 paid by the said *Andrew Henderson* the 25th October last 1708.

Signed ANDREW HENDERSON.

The Collector and Comptroller give you a Warrant of the same Tenour, signed by them, and directed to the Surveyor and Land waiter.

Then you have a Cocquet which runs thus.

*Kirkaldy*

20th November 1708.

Know ye that *Andrew Henderson* Merchant, for Ten Hundred *Norway Deals* and Five Lasts Tarr, paid all Duties Inwards the 25th October ultimo, out of the *Margaret* of *Leith*, *James White*

*White Master from Norway, late unladen, and now in the Elisabeth of Leith, John Higginson Master for Dublin, dated the 20th Day of November 1708,*

C. C. Comptroller-

A. B. Collector

And on the Back of the Cocquet is endors'd as follows.

Contents ship'd.

Ten hundred Norway Deals

E. F. Searcher.

60 Barrels cont. 5 Lasts Tarr

G. H. Searcher.

Your Debenture is made out thus.

*Andrew Henderson Ind. did enter with us the 20th November 1708, in the Elisabeth of Leith, John Higginson Master for Dublin, Ten hundred Norway Deals and Five Lasts Tarr; the Old Subsidy, New Subsidy, One Third Subsidy, Two Thirds Subsidy, Impost 1600 and Impost 169 being paid Inwards by Andrew Henderson Merchant the 25th October last, as doth appear by the Certificate of the Collector Inwards. And for further Manifestation of his just Dealing herein, he hath also taken Oath before us for the same- Custom-house Kirkcaldy, the Day and Year above said.*

A. B. Collector.

C. D. Comptroller.

*Iurat Andrew Henderson, that the ten hundred Norway Deals and Five Lasts Tar abovementioned in this Certificate, were really shipt, and have not been since landed, nor are intended to be re-landed in any Port or Creek of Great Britain. Dated 21 November 1708.*

*Andrew Henderson.*

A. B. Collector

C, D. Comptroller.

*The ten hundred Norway Deals and five Lasts Tarr abovementioned were shipt at the Key the 20th November Instant. Certified the 21st November 1708.*

E. F. Surveyor

G. H. Searcher

I. K. Landwaiter.

On the Back is wrote thus.

All Debentures of this Kind being exactly in the same Stile and Form, its needless to insert any more Examples. You are only to observe the Difference of Computing them betwixt when the Duties are Bonded, and when paid : In which, I hope, the foregoing Entries, and the Scheme of Duties that may be Bonded, will sufficiently direct you.

## Of Corn Debentures.

The Method you have to observe in Exporting Corn for which you expect Bounty-Money, is very much the same with the aforesaid.

You must take Care that your Ship wherein you load your Corn be a *British* Bottom, and Navigated as the Law directs: Then you must require from the Collector and Comptroller where the Corn is ship'd off, a Sufferance for as many Bushels as you think you shall export, which Sufferance is directed as aforesaid, to the Surveyor and Land-waiter, and where there are no such Officers, the Collector or principal Officer must attend ; and when satisfied of the Quantity ship'd off, must endorse

dorse on the Back of the Sufferance, the Quantity and Quality of the Corn so ship'd. This done, you are to bring a Certificat under your Hand, that the Corn you export does not exceed the Price settled by Act of Parliament; which what these Prices be, you may see in the following Scheme.

### *Allowances on Corn Exported*

| Quality                 | When the Prices<br>are at or under | To be al-<br>low'd <i>per</i><br>Quarter. | Acts of Par-<br>liament                                          |
|-------------------------|------------------------------------|-------------------------------------------|------------------------------------------------------------------|

| Bear <i>alias</i> }     | 1 04 00 <i>p.</i> Quar.            | 00 02 06                                  | Ditto                                                            |
| Big. }                  |                                    |                                           |                                                                  |
| Oatmeal, }              |                                    |                                           | 6. Art. of the Uni-                                              |
| when oats }             |                                    |                                           | on, and after con-                                               |
| are at or }             | 0 15 00 <i>p.</i> Quar.            | 00 02 06                                  | firmed in <i>Eng-</i>                                            |
| or under }              |                                    |                                           | land by 5 <sup>th</sup> of<br>Anne.                              |

*Note,* That Oats, Pease, Buck wheat, Beans, &c. not mentioned in the above Scheme, are to have no Allowance upon Exportation.

And that if any Malt, Barley, Rye, Wheat, Bear *alias* Big,  
ground

ground or unground, or Oat-meal shall be exported for the Use of any of her Majesties Garisons, or ship'd on Board any Ship bound for *Newfoundland* or any other Place for Brewing of Beer or Baking of Bread for the Voyage, none of the above Allowances are granted.

After this, you are to give Bond, that the Corn so ship'd shall be Landed in Parts beyond the Seas; and the Ship being sail'd, the Debenture as aforesaid is some time after made out. But be sure you give Directions to your Employer Abroad, to return you a Certificat under the Hands and Seals of two known *British* Merchants beyond Seas, that the Corn was there Landed, or your Bond will be prosecuted, and you obliged to pay back the Money you receiv'd by your Debenture.

Take Care also in all Coast-Bonds given to discharge the Lading in some Part of *Great Britain*, that you have a Certificat return'd from the Custom-house where the said Goods were Landed, in order to be annex'd to your Bond, to be return'd along with your Bond into the Exchequer: The Want of which Certificat will create you a very troublesome Suit in the Exchequer.

Here follow all the needful Examples of the way of proceeding in Exporting your Corn.

### *The Sufferance.*

*Kirkcaldy*

25th June 1738.

In the *Thomas* of London *John Gioson* Master for Dublin,

*John Bruce* Merchant,

One hundred and fifty Quarters Wheat to be ship'd but not exported till further Order.

To the Surveyor, Searcher  
and Land-waiter.

A. B. Collector.

C. D. Comptroller

On the Back is to be endors'd by the Surveyor and Land-waiter the Quantity ship'd off, viz.

In Bulk—120 Quart and 4 Bush. Wheat *Winchester* Measure.

E. F. Surveyor

I. K. Land-waiter

## Entry and Certificate.

N 8.

27 June 1708.

In the *Thomas* of *Leith*, *John Gibson* Master for *Dublin*, a  
*British Ship* *John Bruce* Merchant, One hundred and  
 twenty Quarters and four Bushels of Wheat, *Winchester* Mea-  
 sure, *Bittish* Growth, Custom-free.

These are to certify, that I *John Bruce* Merchant have shipped  
 One hundred and twenty Quarters and four Bushels of Wheat,  
*Winchester* Measure, on Board the abovementioned Ship bound  
 for *Dublin*, and that the Price of *Wheat* of the Measure afore-  
 said, in the Port of *Kirkaldy* the last Market Day did not ex-  
 ceed Forty eight Shillings per Quar. *John Bruce.*

*Jurat* *John Bruce* and *Thomas Stirling*, that the Contents of the  
 above-mentiop'd Certificate is true

A. B. Collector

*John Bruce*

C. D. Comptroller

*Thomas Stirling*

Note, You have always one joyn'd along with you in giv-  
 ing Bond and Oath for exported Corn.

## Warrant.

*Kirkaldy*

27 June 1708.

In the *Thomas* of *London*, *John Gibson* Master for *Dublin*,

*John Bruce* Merchant,

One hundred and twenty Quarters and four Bushels of  
*Wheat Winchester* Measure. *A. B. Collector*

To the Surveyor, Searcher & Land-waiter. *C. D. Comptroller*

## Corn Deventure.

Port *Kirkaldy*

These are to certify, that I *John Bruce* Merchant dsd on the  
 27th day of *June* 1708, enter and have ship'd for *Dublin*, In  
 the *Thomas* of *London* a *British Ship*, whereof *John Gibson* Mas-  
 ter, and two thirds of the Mariners are her Majesties Subjects,

One hundred and twenty Quarters and four Bushels *Wheat*,  
*Winchester*

*Winchester* Measure, and that the Price of *Wheat* of the Measure  
aforesaid in the Port of *Leith* the last Market day, did not ex-  
ceed fourty eight shillings per Quarter. Witness my Hand this  
27 day June 1707.

John Bruce

*Jurat* John Bruce,  
that the Contents  
of the above Cer-  
tificate is true.

The one hundred and twenty Quarters  
and four Bushels *Wheat* abovemention'd  
was ship'd off at the Key the 27th Day  
June 1707.

A. B. Collector

E. F. Surveyor

C. D. Comptroller

G. H. Searcher

I. K. Land-waiter

Bond is taken in the Penalty of one  
hundred Pounds, that the Corn above  
mention'd ( the Danger of the Seas  
excepted ) shall be exported into  
Parts beyond the Seas, and not be  
again landed in *Great Britain*.

The Vessel above  
mentioned is a  
*British Ship*, the  
Master and two  
thirds of the Mari-  
ners are her Majes-  
ties Subjects.

A. B. Collector

G. H. Surveyor

C. D. Comptroller

On the Back is wrote as follows,

The Money to be paid for the Corn within  
mention'd, pursuant to a<sup>s</sup> Act of Parliament  
for encouraging the Expottation of Corn, a-  
mounts to thirty pounds two Shillings and six  
Pence

L. 30 02 06

A. B. Collector

C. D. Comptroller

*Jurat* John Bruce, that all the Corn within mentioned certified  
to be ship'd, both for Quantity and Quality is really and truly  
Exported to Parts beyond the Seas, and not again Landed, nor  
intended to be Landed in any Part of *Great Britain*. Custom-  
house *Kirkcaldy* 25th July 1707.

John Bruce,

If

A. B. Collector

C. D. Comptroller

If the Collector has not Money arising from that Branch of  
of Customs wherewithall to pay it, he writes thus

These may certify the honourable Commissioners of her Ma-  
jesties Customs in North Britain, that I have not Money in my  
Hands arising from the Customs, sufficient to pay the within-  
written Debenture. A. B. Collector

Astor Fish or Flesh Debentures, some Points about 'em not  
being as yet settled by the honourable Commissioners, I must  
resdr 'em till my next Treatise. Only in the Interim be pleas-  
ed to observe, that there is to be allow'd
